Press Release – for immediate release

The Town of Allan is pleased to announce a new Population Growth Program. This makes good ‘cents’ to build a house, or move to Allan with your family. This innovative program will give individuals who construct a new home in Allan a maximum property tax credit of \$7,000.00 per family.

Mayor Steve Peters “The Town of Allan is excited to offer our growth plan to help young families enjoy small town living for reasonable prices.”

The Allan Council believes this program will make our 24 residential lots, ranging in price from \$32,000.00 to \$55,000 even more attractive. The program is available to individuals, families and contractors. It applies to each property with a new home for first purchase or new construction. Carry overs by contractors will be permitted. In addition, families may be eligible for a \$500.00 per child tax credit. Certain conditions will apply.

Allan is proud of our excellent swimming pool, skating and curling rink complex, volunteer operated golf course and park. In addition our K-12 school, Saskatoon drinking water and reasonable taxes, all in a half hour’s drive to Saskatoon make Allan an excellent place to live, work and play.
